```

✓ PRINCIPLES

- ✓ **Labs before lectures** — hands-on before it's tested on the exam.
- ✓ **Taught by practitioners** — not trainers reading someone else's deck.
- ✓ **Fast-track, not a shortcut** — exam-ready pace, real conceptual grounding.
- ✓ **Job-ready over paper-ready** — skills that hold up after the cert is printed.
- ✓ **Free online, no barrier to entry** — open access, zero cost.

Voice: professional & authoritative, moderate friendly energy.

✓ CERTIFICATION TRACKS

 CompTIA A+ Core hardware & OS The practitioner baseline every other track assumes.	 Network+ Infrastructure & protocols Reading a network at a glance — lab-built instinct.	 Security+ Defense & response Threats and response, taught as actually practiced.
